

SPML secures Rs 526 crore order

Subhash Projects And Marketing Ltd (SPML) has bagged underground sewerage scheme valued at Rs 525.79 crore (including operations and maintenance cost for 5 years after commissioning) from Mira Bhayandar Municipal Corporation, Maharashtra. The scope of work includes underground sewerage facilities in the 24 sq. km area of this fast developing city within the next 30 months. The project would comprise providing, laying and commissioning 107 km of sewer lines; design, construction and commissioning of 10 pumping stations and 10 Sewage Treatment Plants (STP) with capacities

ranging from 7 mld to 17 mld. It will also provide for the necessary pressurised ring mains for distribution and disposal of recycled water. The system would be designed on completely decentralised system having 10 zones across Mira Bhayandar. The project includes operation and maintenance responsibilities of the above developed system including the STPs for 5 years after commissioning. The project has a completion dateline of August 2011. This order is SPML's third order in the last four weeks, with a cumulative value Rs 1191.79 crore. "The underground sewerage scheme

project for the Mira Bhayandar Municipal Corporation is a testimony to SPML's proven prowess in the complete water cycle management domain. The project will complement the growing urban needs of Mira Bhayandar, which is one of Maharashtra's fastest developing zones" commented Subhash Sethi, Vice Chairman, SPML.
