Did you know?

The first credit card was issued by the Diners Club in New York City, allowing its customers to use it at 27 locations in 1950.

The shape and size of all cards is same because ISO 7810 governs the dimensions.

Credit card issuers cannot send you a card, which you never applied.

The main reason for replacement of credit cards is limited life of the magnetic strip (about 3 to 4 years).

SPML Tech's Information KIOSK with touch screen

As an extension of our business offerings that includes Any Time Payment (ATP) and Document Management Systems, we have recently ventured into a new range of products - Information Kiosks with touch screen.

Keeping in mind the growing need for seamless information flow and enhanced relationship between an organization and its target audience, it is imperative that the rapidly growing sectors leverage technology to the maximum. These self service kiosks can be installed at institutions (schools, colleges, hospitals or government organizations) own office premises and other strategic locations to enhance customer engagement by providing useful information pertaining to their product/service offerings. The distinct feature of our Information Kiosk is that it is a user-friendly machine that can be operated even by people who are not computer savvy.

SPML Technologies ATP System inaugurated at Harapanahalli

Harapanahalli, a town situated in Central Karnataka, around 300 km from Bangalore, can now avail Any Time Payment services for BESCOM provided by SPML Technologies. Shri Karunakar Reddy, Hon. Revenue Minister inaugurated the ATP system on June 06, 2009. The services would benefit a population of about 30,000 for paying their utility bills.

SPML Technologies showcases ATP system at Hospitality World - Bengaluru 2009

In collaboration with IRCTC, SPML Technologies made its presence felt at Hospitality World - Bengaluru 2009, an International Exhibition & Conference on hospitality and food processing industry held at Palace Grounds, Bengaluru from 25th to 27th June, 2009. SPML Technologies participated second time in a row in this event to create awareness about our utility payment kiosks that not only foster consumer convenience but also makes railway e ticketing quicker and simpler. Numerous visitors thronged the stall on these days. While other visitors gathered information on the payment process and payment kiosks, few actually made reservations using our payment kiosk.

CCSL top management officials visit SPML Technologies

Canbank Computer Services Limited's (CCSL) Managing Director Mr. H. K. C. Swamy along with Mr. Nair, Vice President visited SPML Technologies office and R&D center on July 24, 2009. CCSL, a subsidiary of Canara Bank plans to install automated payment kiosks and visited SPML Technologies to get acquainted with our Any Time Payment systems and services. They got the opportunity to interact with the operations and technical team that also gave a demonstration of the utility payment collection kiosk.
